NEW HOPE ACADEMY SCHOOL

Building Hope through Education

Subject: Request for a financial partnership to invest in the future of Haiti's children

Madam, Sir,

It is with great humility and deep hope that we address you to request your precious support for a work which, since **2022**, has been progressively transforming the lives of many children in the community of **La Montagne, Jacmel, Haiti**.

New Hope Academy School was born from a clear vision: to offer children from the most vulnerable backgrounds a quality education, based on Christian values, academic excellence and the integral development of the person.

Since opening in **2022**, our school has pursued planned and sustainable growth. Unlike many schools that recruit students from other schools, **New Hope Academy has made the strategic choice to build its future by supporting its own students from Pre-Kindergarten (Pre-K) onwards.**

Our goal is ambitious, but deeply considered: to see these same children grow up within New Hope Academy, progress year after year, and be supported until they are ready for university studies. We are not simply building a school; we are building a generation.

This vision explains why **a new class is added to the curriculum each school year.**

For the next academic year, we will be opening a **new class**, which will entail the recruitment of **two new qualified teachers** as well as the acquisition of new teaching equipment, school furniture, books, supplies and educational resources necessary for the smooth running of this expansion.

Thanks to God and the generosity of many friends and partners, we have been able to complete the initial stages of this project. However, our financial resources remain insufficient to meet the natural growth of our school.

We have not yet reached the level of development we anticipated, not through lack of vision or commitment, but primarily due to limited financial resources.

Despite these challenges, our vision remains intact.

We believe that **every child deserves the opportunity to receive an education that will enable them to fully develop the talents God has placed within them.**

Today, we are appealing to your generosity to become a partner in this endeavor.

Your contribution, however small, will help to support:

- the recruitment of two new teachers;
- the opening of the new class;
- the purchase of desks, blackboards, books and teaching materials;
- the acquisition of school uniforms for the most vulnerable children;
- the daily operation of the school;
- the pursuit of our long-term educational vision.

Your donation is not simply financial aid.

It represents a lasting investment in the future of a child, a family, a community, and ultimately, an entire nation.

We invite you to walk with us on this beautiful mission.

Together, we can offer these children not only a school, but also a future filled with hope, knowledge, values, and opportunities.

On behalf of all our students, their families, our teachers and the entire team at **New Hope Academy School**, we sincerely thank you for your attention, your prayers and your generosity.

May God bless you abundantly.

Please accept, Madam/Sir, the expression of our deepest gratitude.

With gratitude,

The Administration
New Hope Academy School
